

HELP US DISTRIBUTE THE REMUNERATION PROPERLY

For the remunerations to be distributed properly by the Organizations (Grammo, Erato, Apollon) to their members, a list of the repertoire (playlist) that the business have used each year is collected. The business is required according to the law, to send GEA a list with the songs (title, album, song, artist) or radio stations or television stations or webradios that have been used at their spaces.

This way, the distribution of the remunerations is based on these catalogues and is done in the most **proper** and **fair** way towards the rightholders. For more information regarding the distribution to the rightholders please contact the Organizations:
